physical characteristics

MODEL SHEET

The Go Gopher

emotions
are shown using
eye shape. no
eyebrows please.

two ways of holding
objects; under the
arm nub, and by touch.

when seated, the
belly flesh folds
in half.

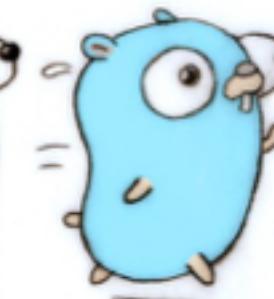

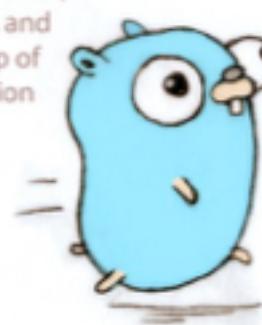

front side

back side

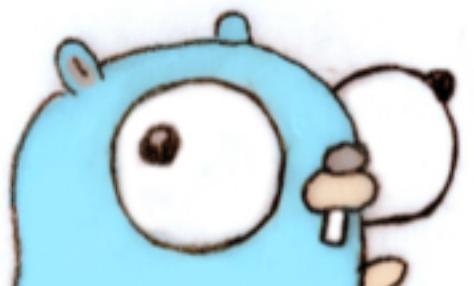

ears blowing back,
motion lines, and
maybe a drop of
sweat for action
shots.

kidney bean
shape

tiny ears

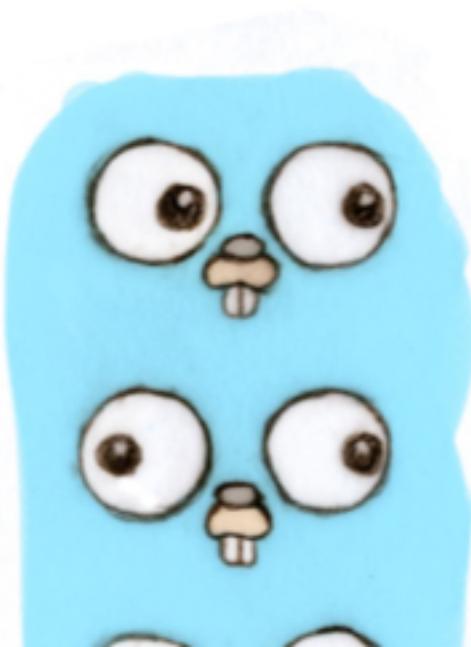

=

tail, arms, legs
& whisker pad
same color

nubs for
arms & legs

size of the
iris is no
larger
than this.

emotion is
shown using
the shape
of the eye.
no eyebrows

please.

double tooth

or

front side

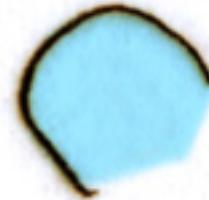

back side

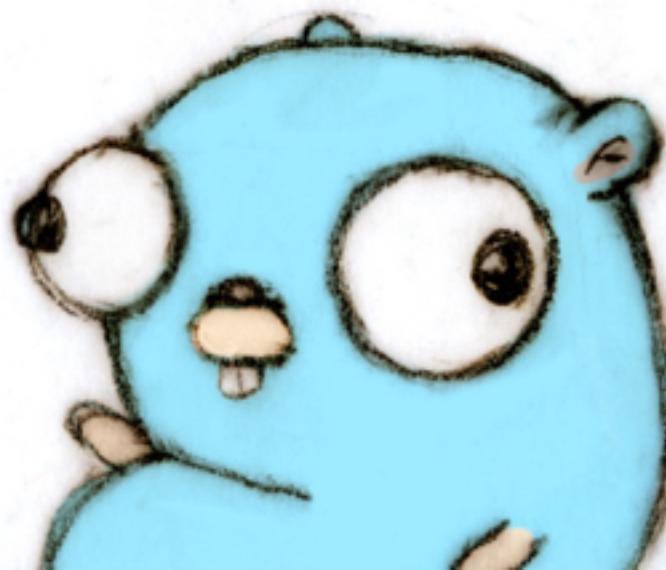

single tooth

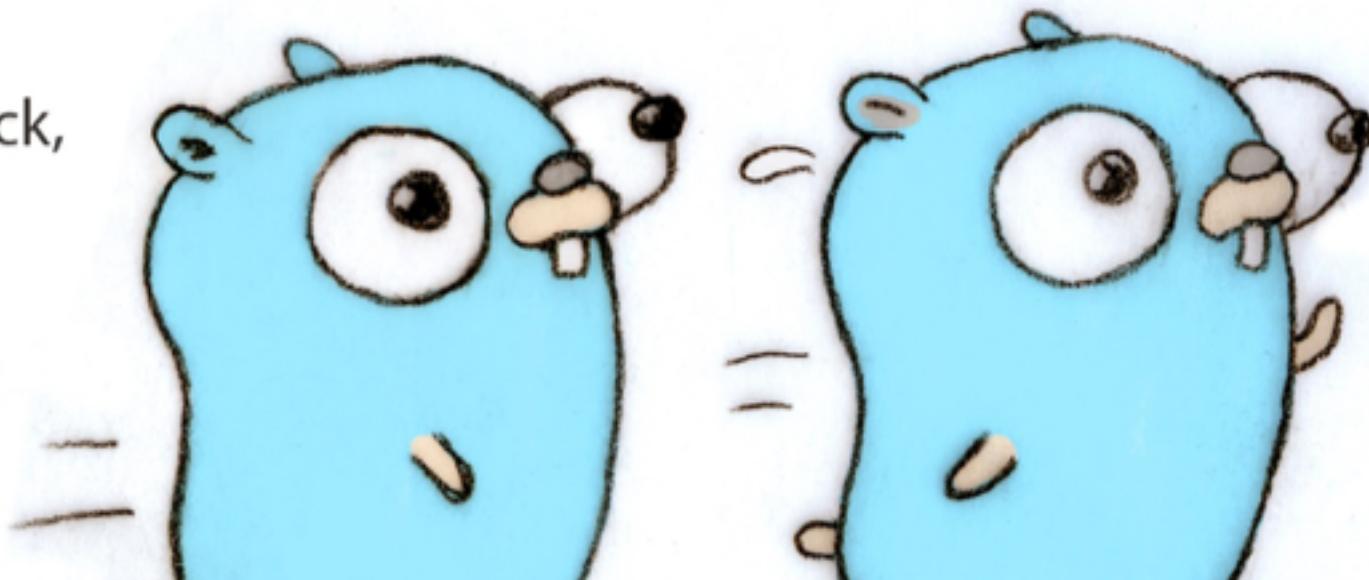

back side

when seated, the
belly flesh folds
in half.

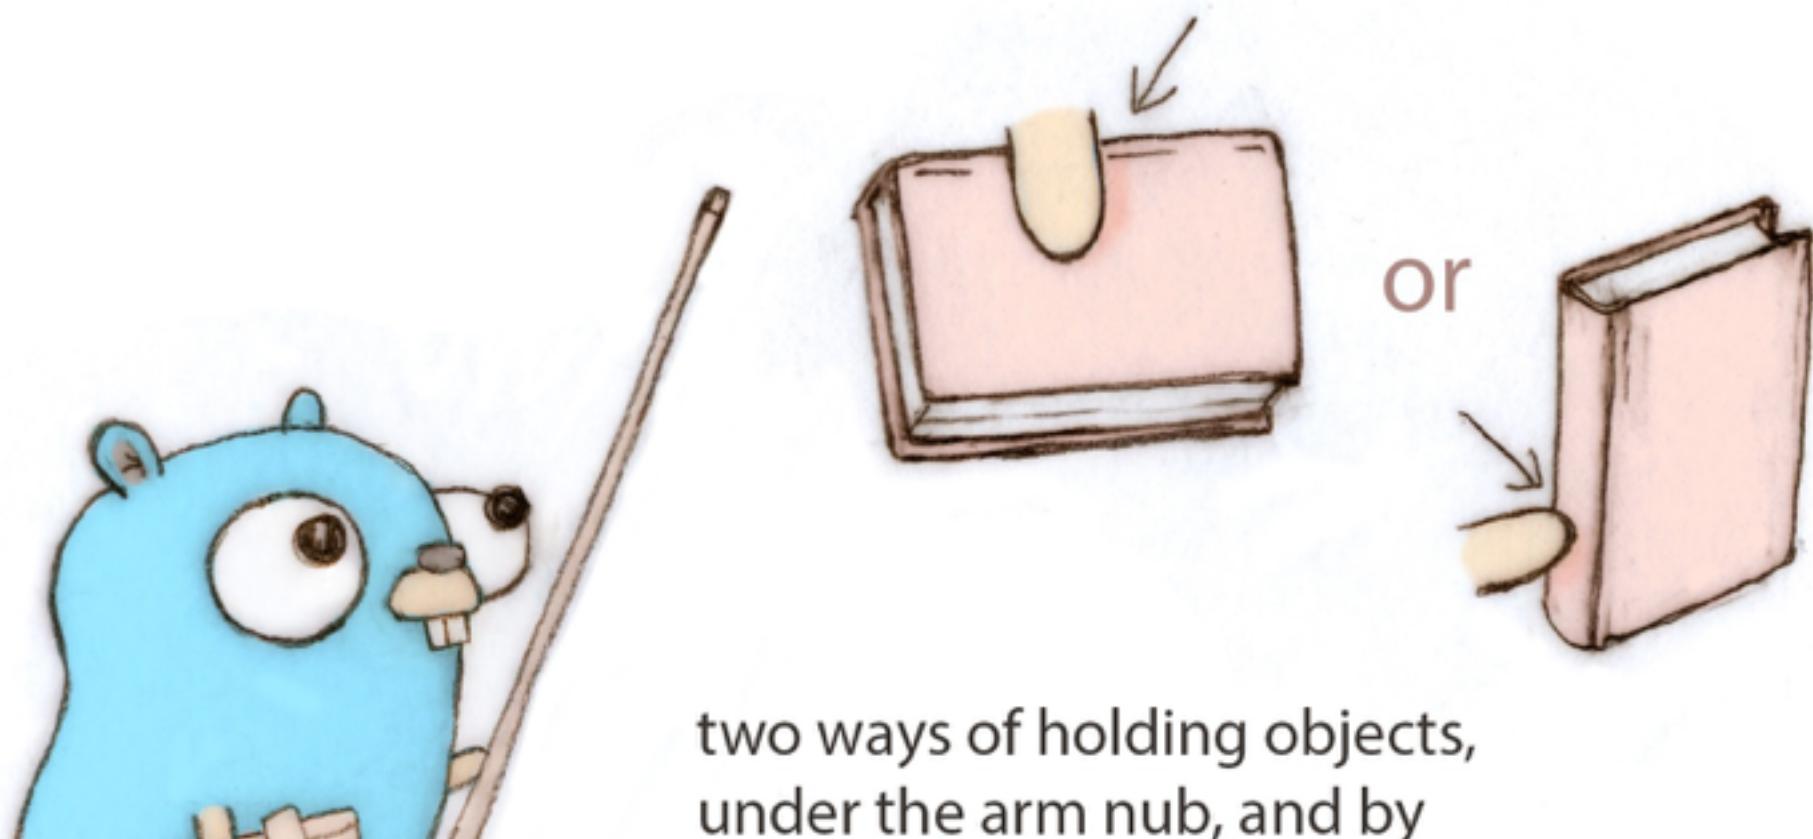

ears blowing back,
motion lines,
and a drop of
sweat for action
shots.

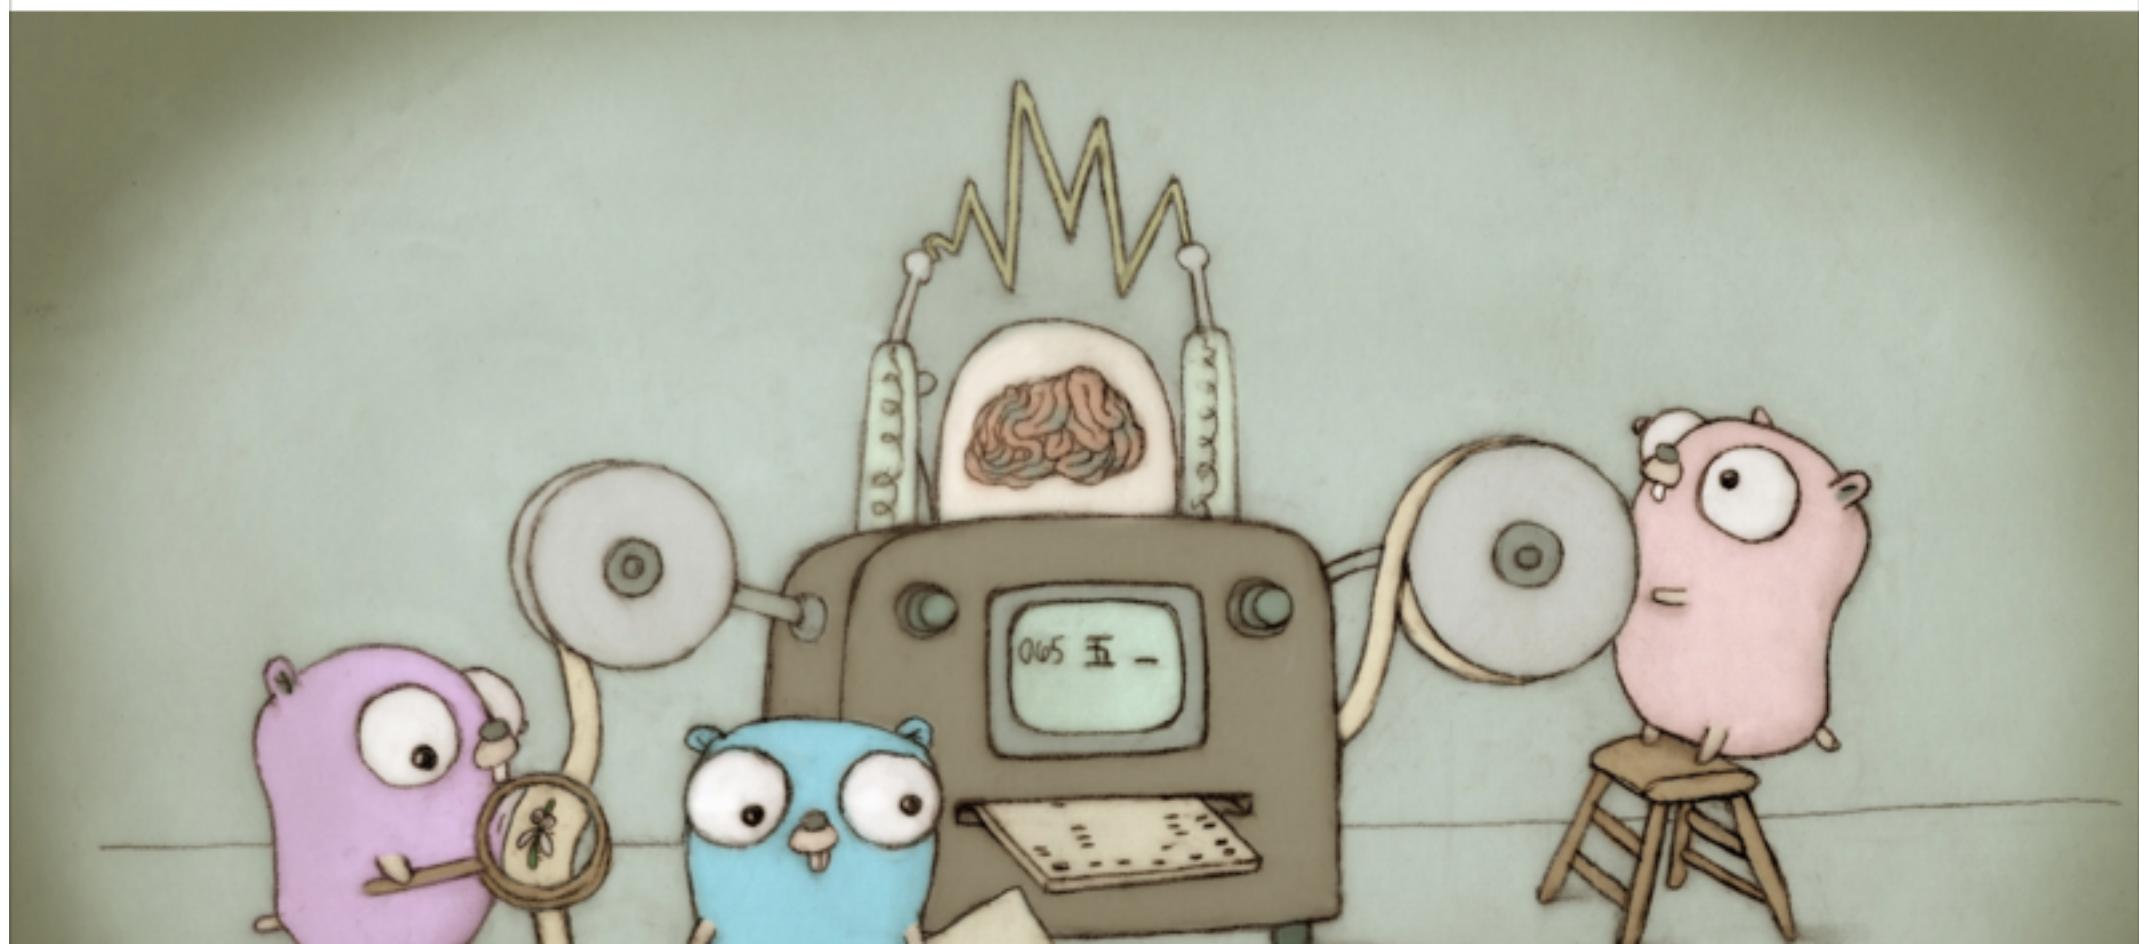

how does the gopher hold things?

two ways of holding objects,
under the arm nub, and by

touch.

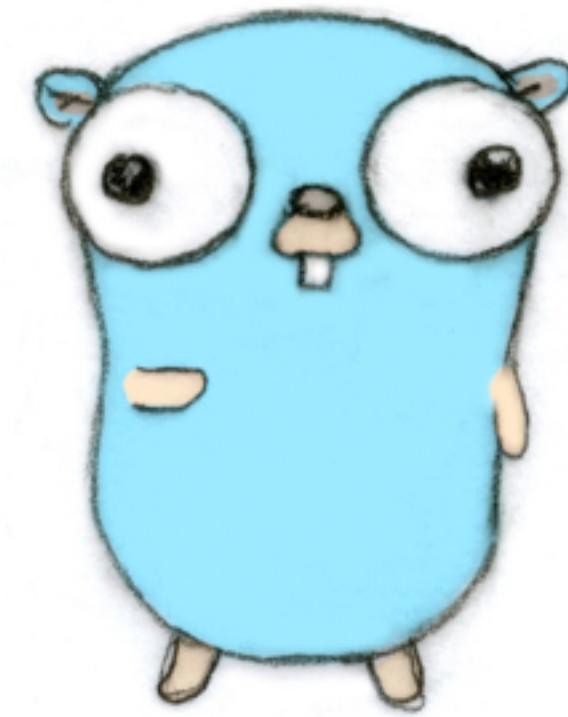

adhesive hand and feet pads
enable van der waals interactions,
allowing the geckos to walk

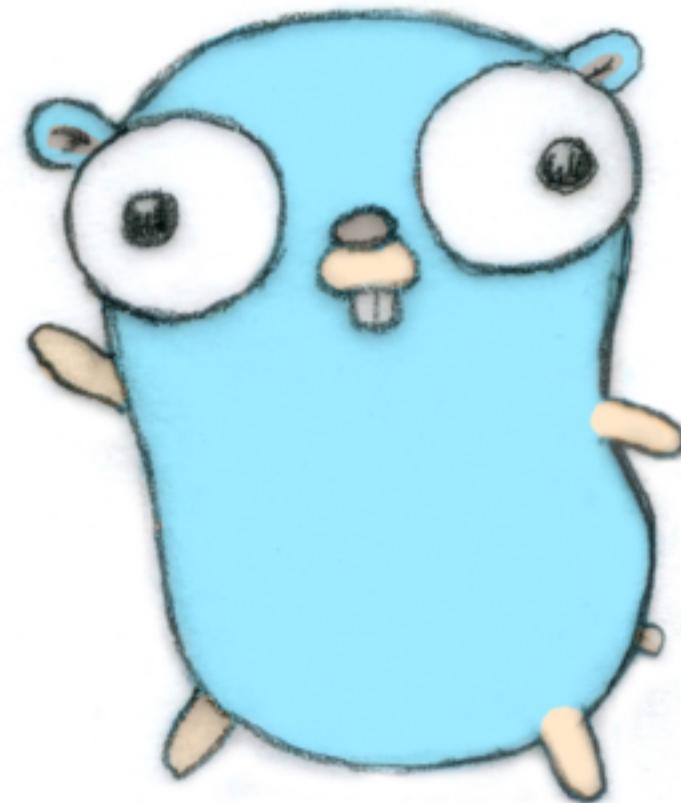

allowing the gopher to grab
objects without fingers.

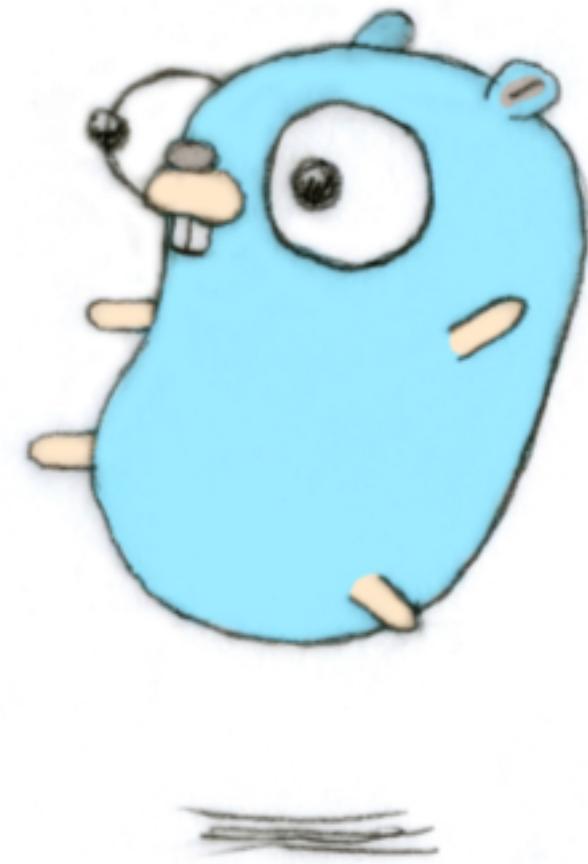

the gopher does famous poses

Botticelli's Birth of Venus

John Travolta in 'Saturday Night Fever'

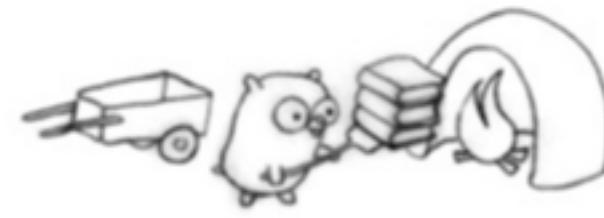

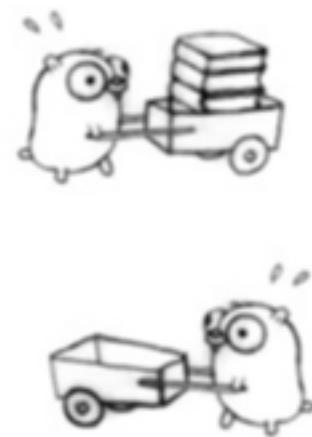

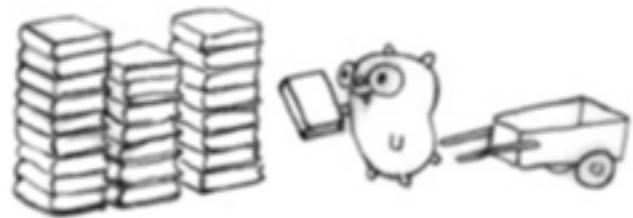

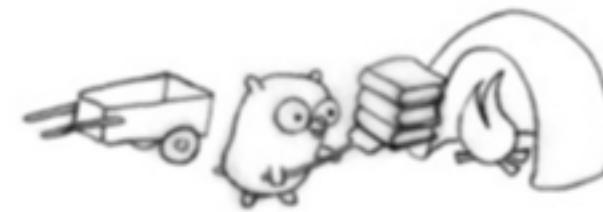

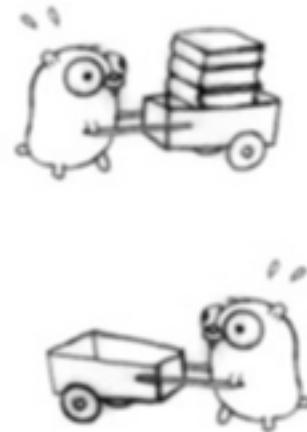

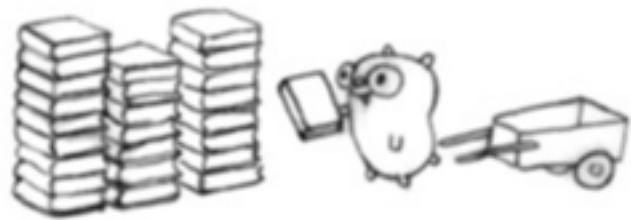

Bruce Lee in 'The Big Boss'

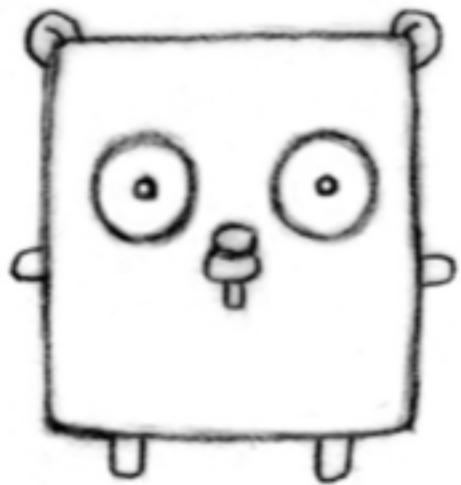

The Matrix – ‘bullet dodge’

Gophers in talks and shirts, etc.

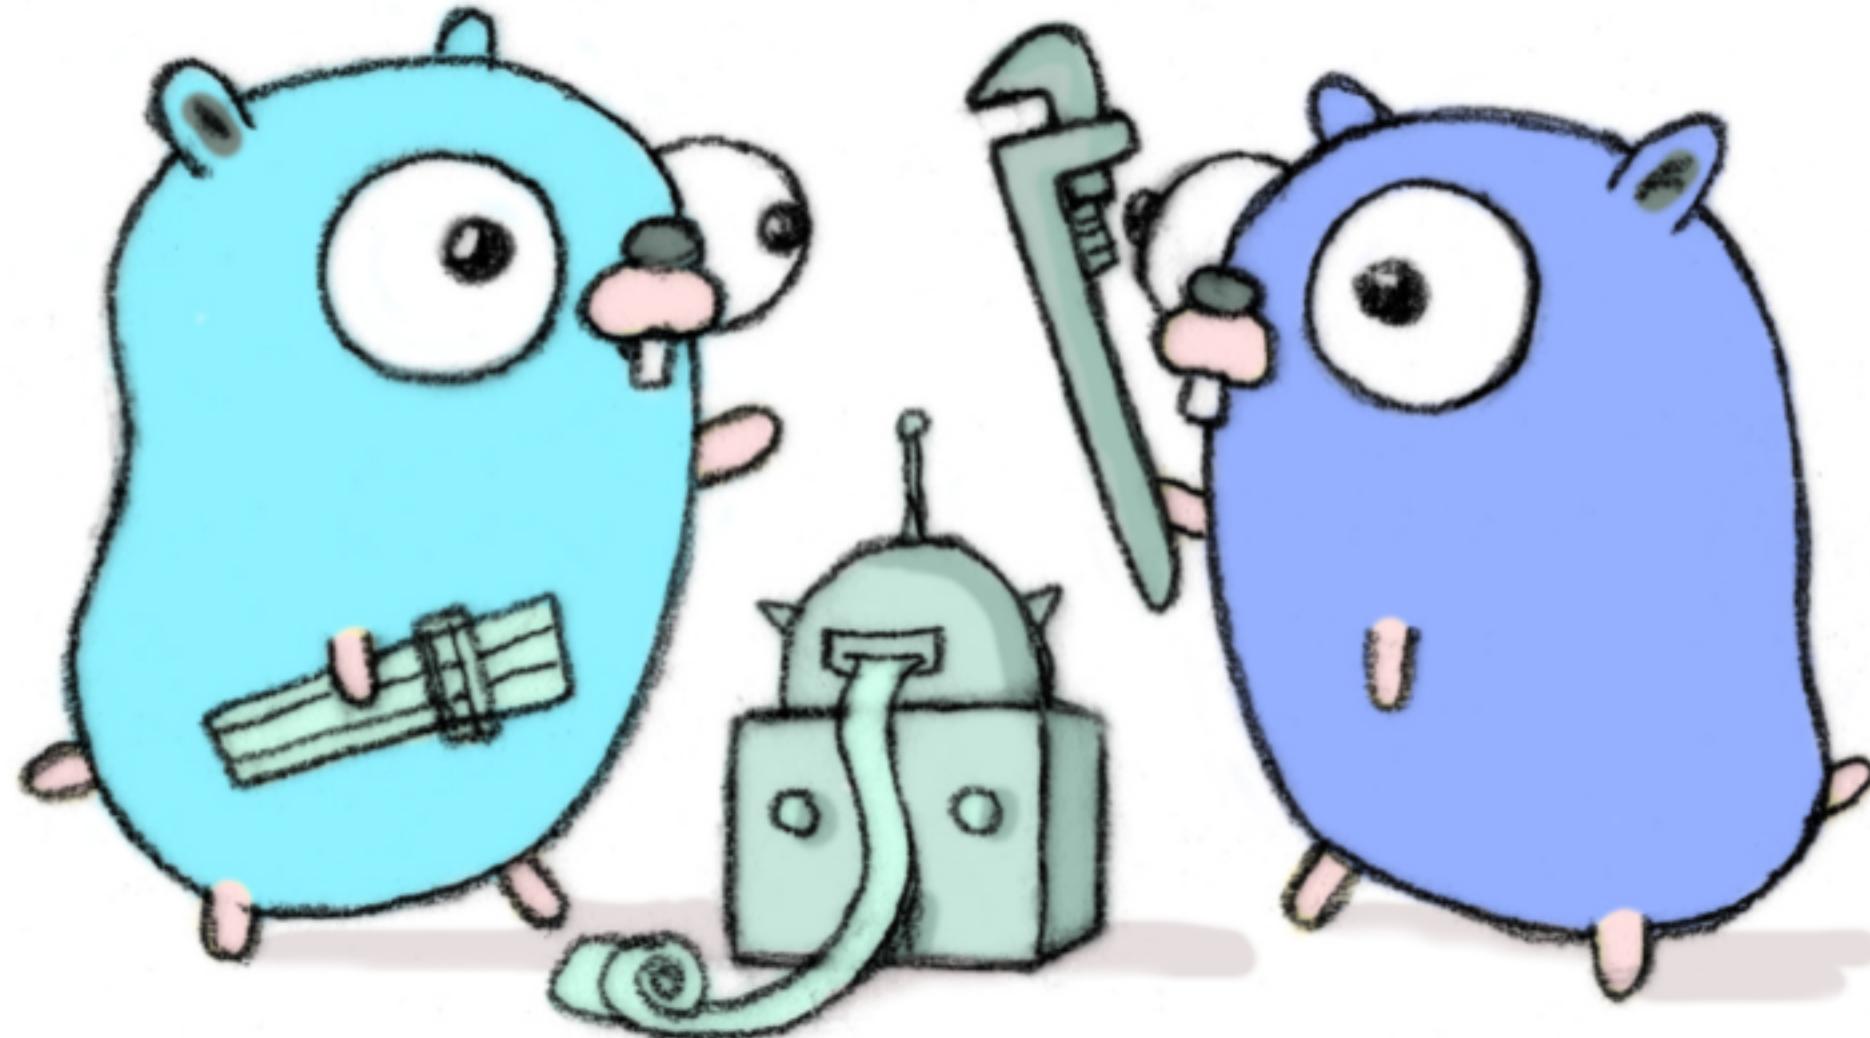

rob pike – “concurrency is not parallelism”

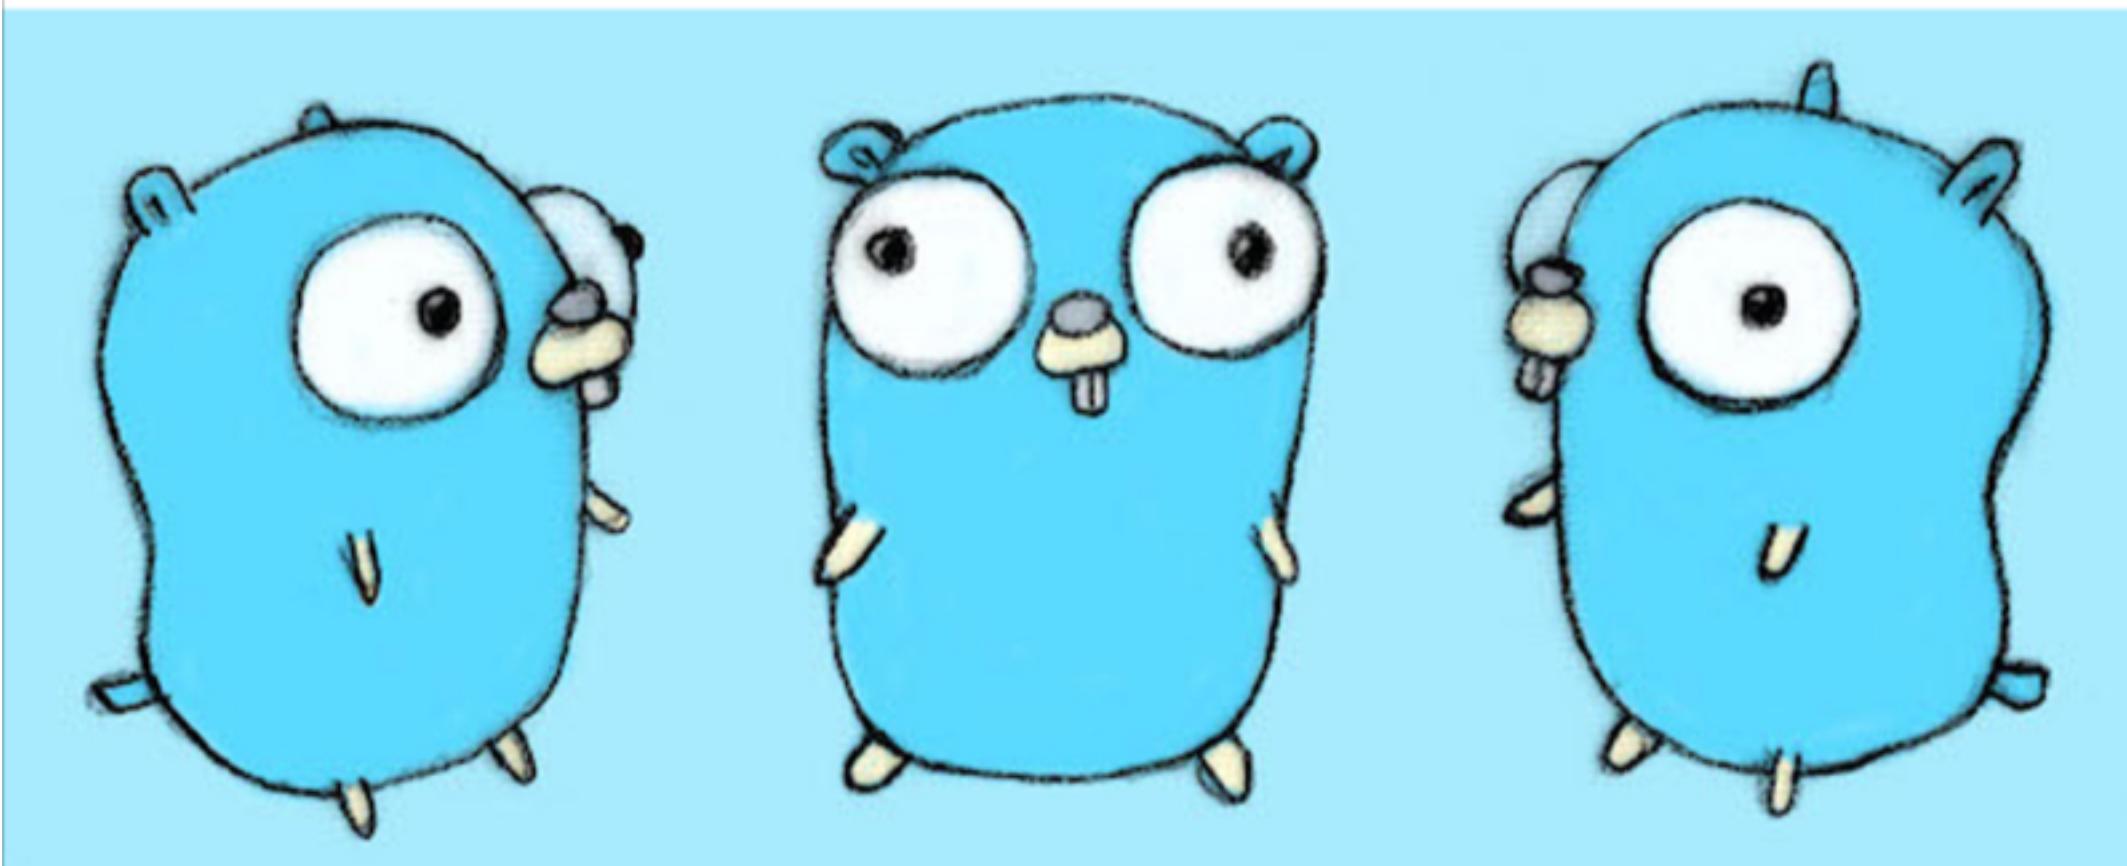

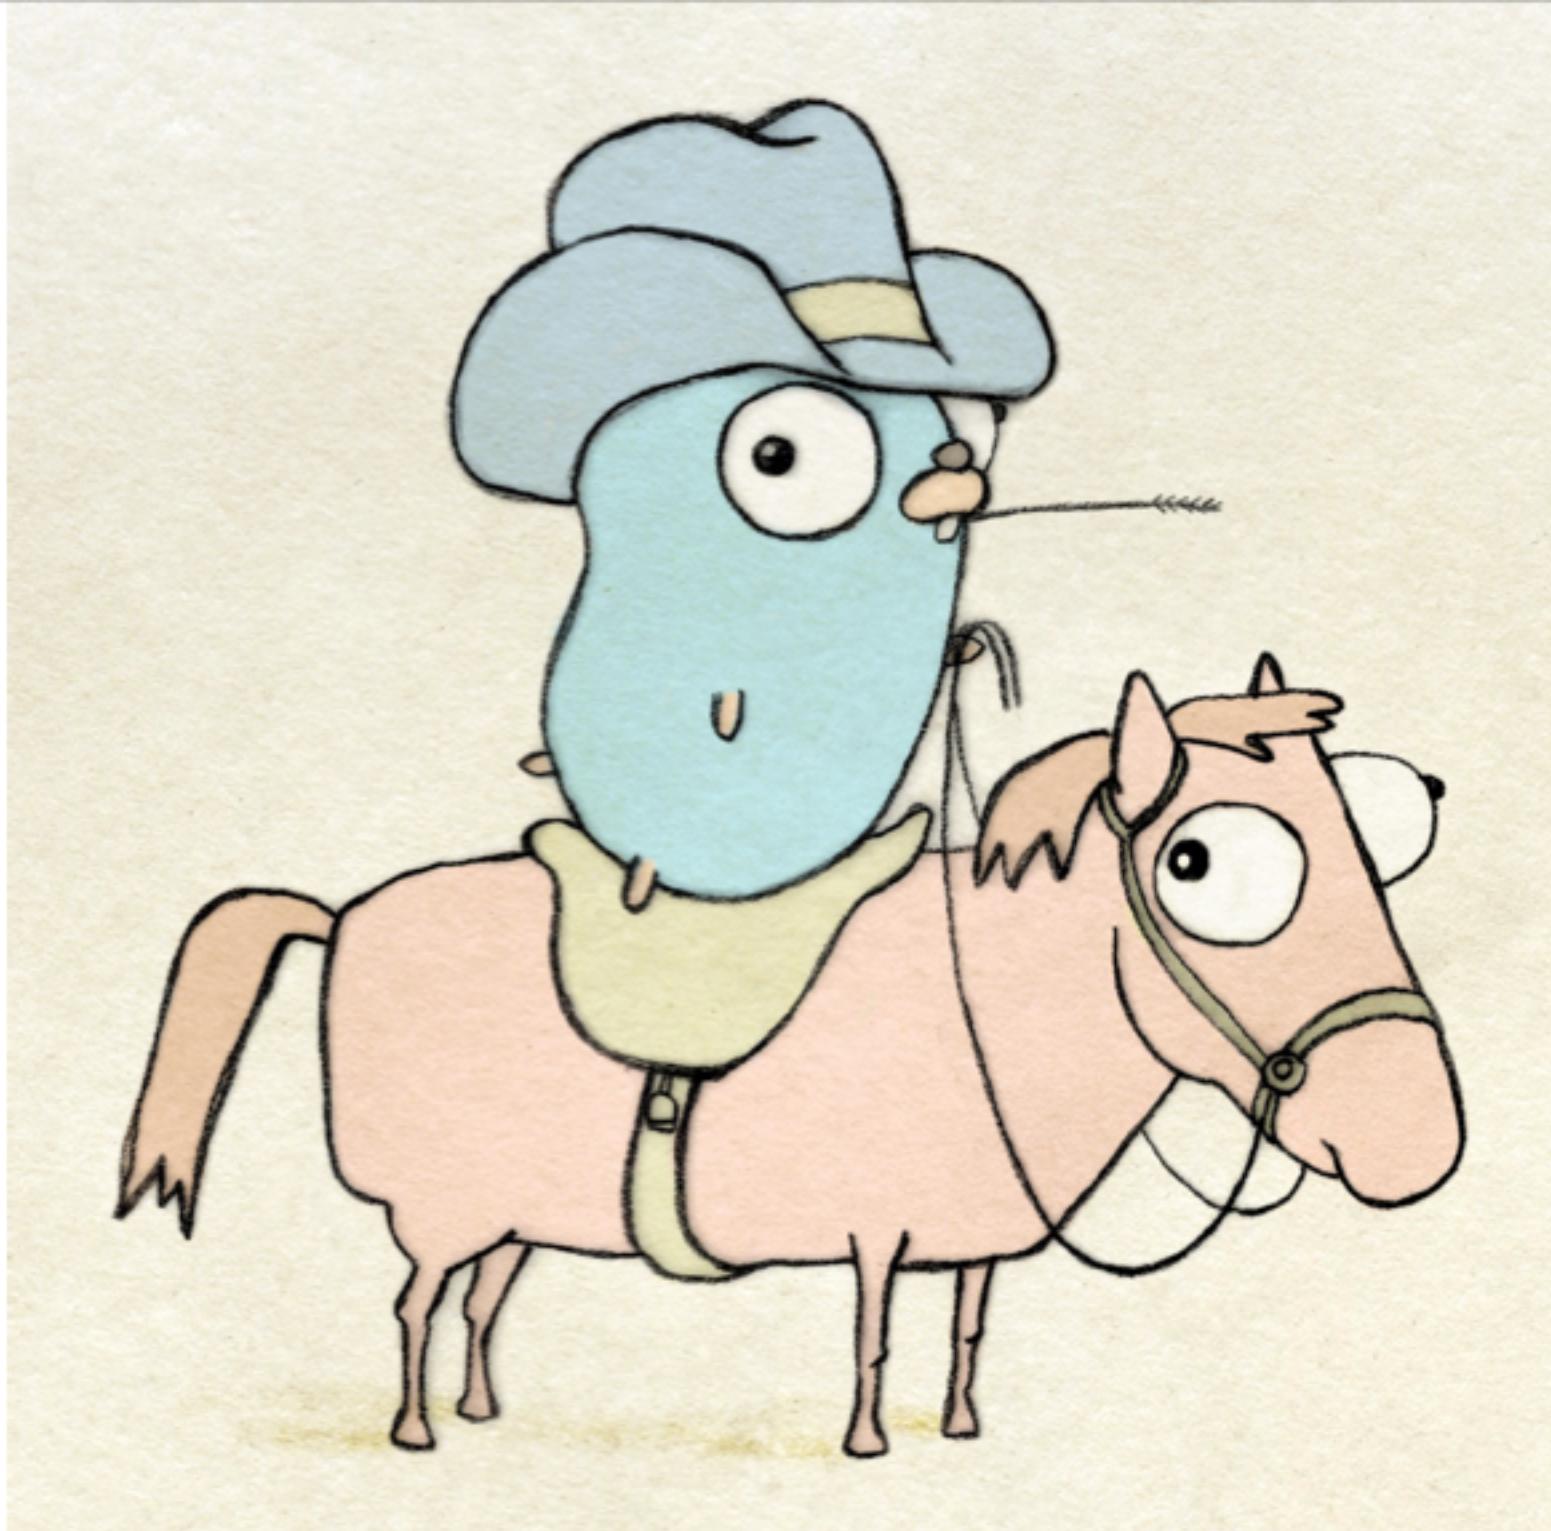

Don't over-specify.

Don't under-specify.

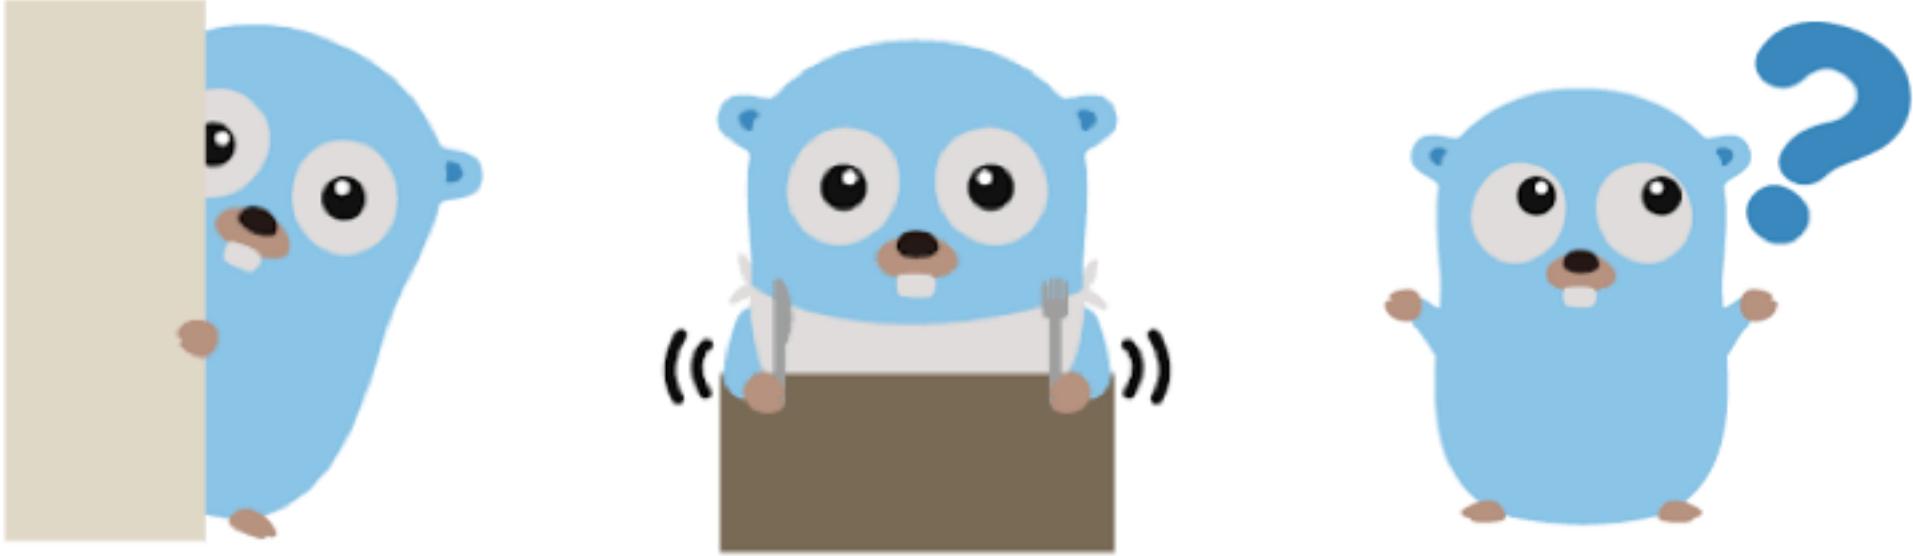

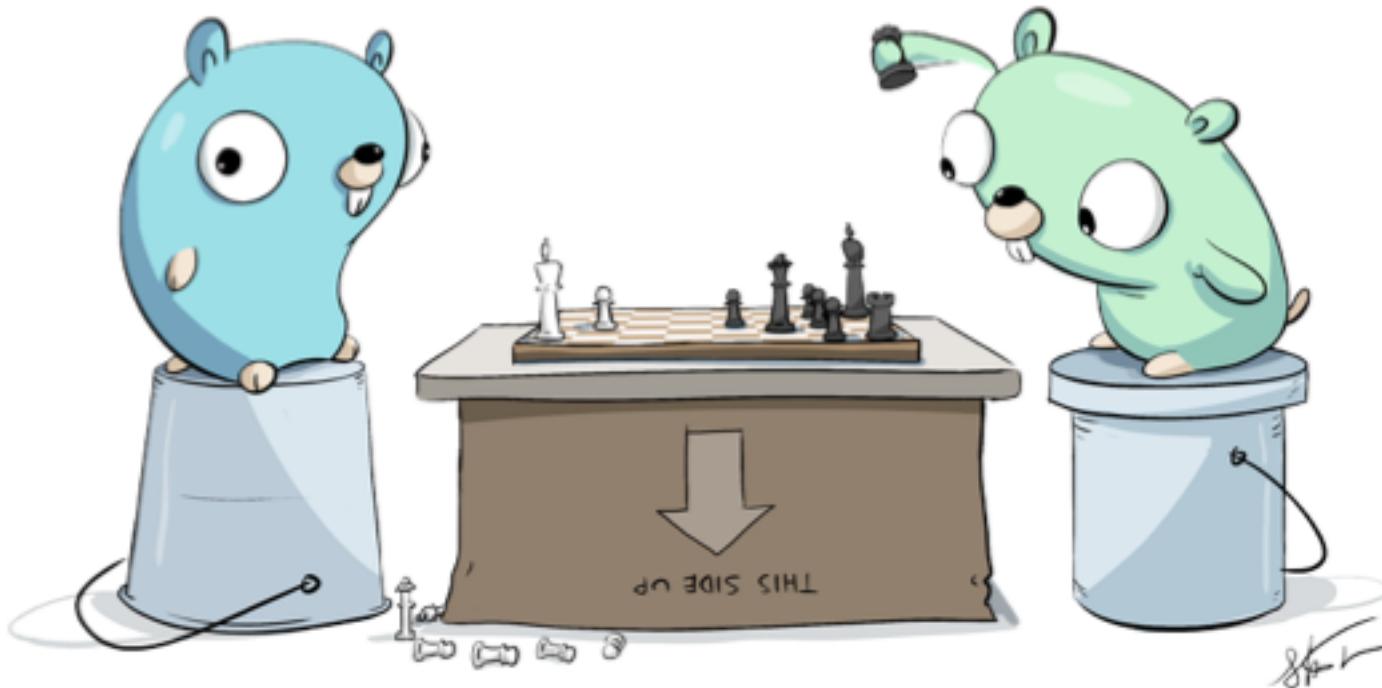

some of my favorite Gopher art

tenntenn !!

Laurel Duermael for Docker

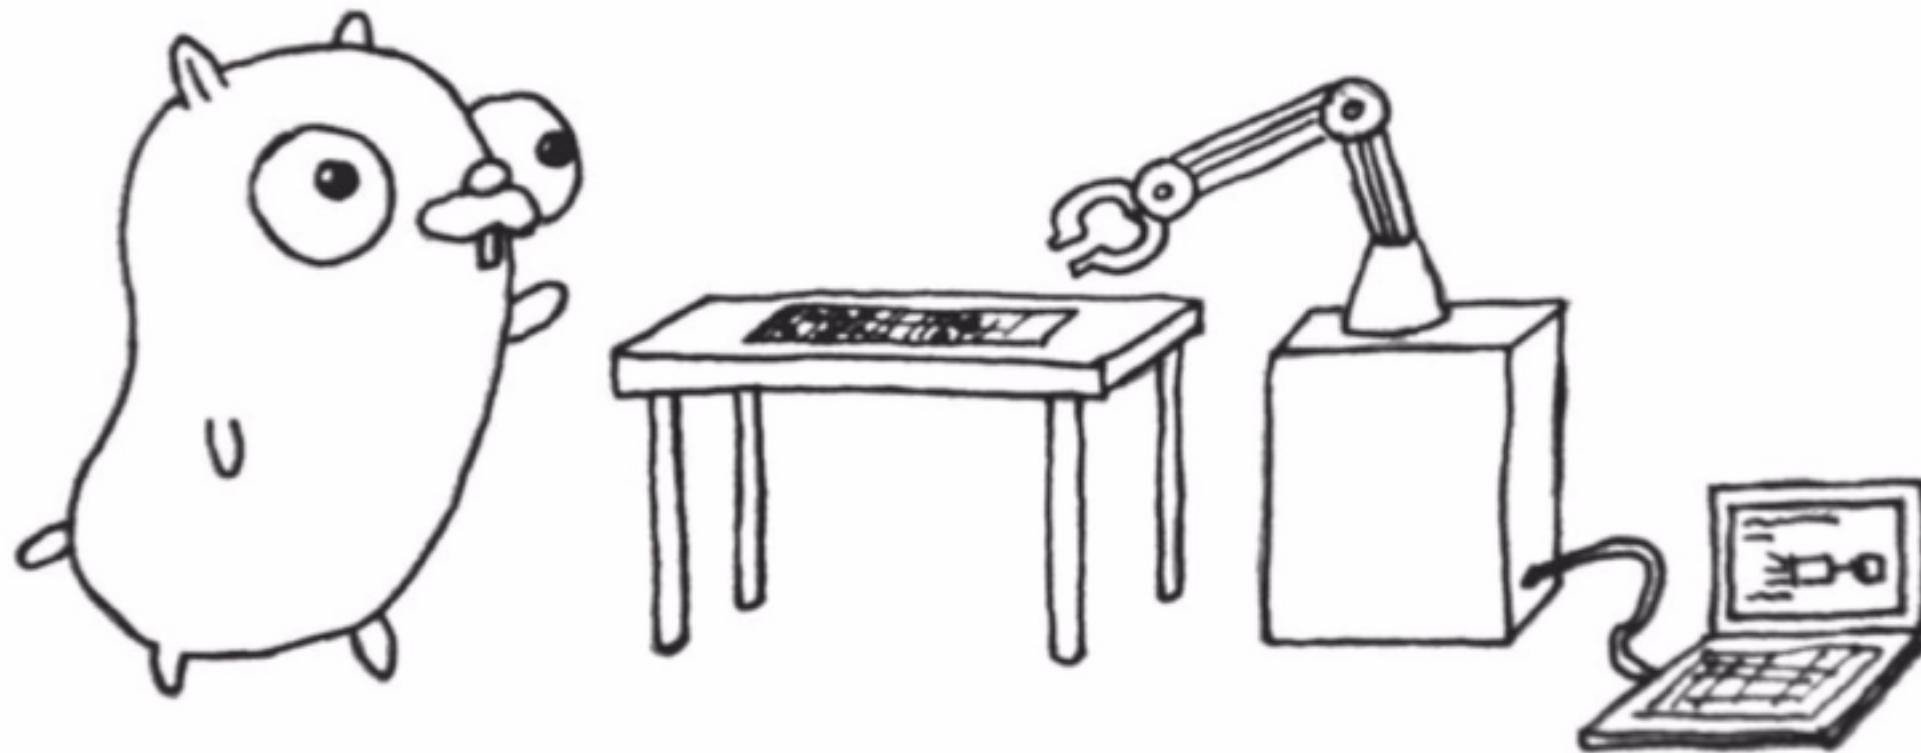

Stephen Picher for 'Go play chess.'
